THE EMPIRE IN FIGURES.

A Wonderful Growth.

[BY H. W. WILSON IN THE LONDON "MAIL."] The following figures will give some idea of the area and population of the Empire and of its various States, of its growth in the last fifty years, and of its military and naval resources.

The area of the British Empire is 13,000,000 square miles, or more than onefifth of the whole area of land on the globe -which is calculated to be 65,009,000 square miles. The following are the areas of the chief States or Colonies in order of

2.974,000 Bouth African Colonies West African possessions... East Africa and Uganda Newfoundland and Labrador ... United Kingdom New Zealand

A FAMILY OF 400,000,000. The total population of the Empire in 1901 was 385,346,000, and in 1908, and is over 400,000,000, so that it is between onefourth and one-fifth the total population of the globe, which is estimated at Codes:—A1, ABC 5th Ed., Western Union. 1,750,000,000 souls. It is larger than that of any other nation, for though Chinese estimates put the total population of the Chinese Empire at 450,000,000, they are not accepted by statisticians.

> Of the vast population of the Empire only a mere fraction is white. The total white population in 1908 stood, according to estimates, as follows: United Kingdom... 44,800,000

South Africa... 1,250,000 New Zealand Gibraltar, Malta, and Cyprus ... Other Colonies

58,350,000 Subtracting this from the figure given for the coloured population, the total for the latter is 351,650,000. Thus there are six coloured inhabitants of the Empire for every white one. In order of total population the most

important States of the Empire stand as Indian Empire United Kingdom ... East Africa and Uganda ... 1049 Australia

GROWTH OF THE EMPIRE. The following figures show the development of the British Empire between 1860 and 1906-7, thus illustrating the enormous advance in every conceivable respect : III—Life & Annuity Funds 14,315 842 10 3 Revenus 114,000,000 280,000,000 Sinking Fund Account 45,907 5 3 Trade (impts. and expts.)503,000,000, 1,526,000,000

Thus, in a period of slightly less than fifty years the area and population have been doubled; the while population has increased by 24,000,000; the revenue has increased two and a half times; and the volume of trade has been more than

... IMPERIAL DEFENCE. The cost of all the defensive forces of the Empire is £91,000,000 out of a total of £301,000,000 spent in administering the Empire. This is more than any other

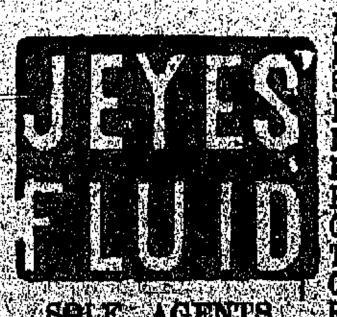

single Power in the world, spends upon its naval and military forces. The following are the amounts contributed by the various States of the Empire to naval defence :-

Total naval expenditure... £32,702,000 Contributed by India for Indian Squadron ... Trooping Service New Zesland Newfoundland

Total Colonial contributions #432 000 Paid by the taxpayer of the United Kingdom ...£32,270,000 The people of the United Kingdom thus' contribute 15s, per head, and the white in-(Continued on Page 3.)

HOW TO DO MORE BUSINESS. MANY AMERICANS have built up
Marcat commercial enterprises, by the
use of Trade-news items supplied by our
CLIPPING BUREAU; Chinese merchants can do the same if they follow American methods.

We can send you news and alippings on any line of business, or any subject and you will be able to know, IN TRUTH, just what American business methods are like,

and where there are openings for Chinese Suppose, for instance, you are a maker of Pottery: our Clipping Bureau might find in some paper an item saying that it big wholesale Pottery concern was being organized in a certain town :- we, course, would send you that business-news

item, and give you a chance to do business with that firm. We can do just the same in any line business, for there is always mething bang on that it might pay Chinese merchants to know. of all the great American merchants and

manufacturers, so that you may seminitare their ideas and increase your business in Ohina the way we do here.

To swoid delay, send ten dollars (Max.) for one month's trial order. Subsequent rate can be determined according trearries. It won's cost any money to send for our fine Book which tells all shour our east on and how much if costs. Send for it to-

H. M. S. Cadmus.

The British squadron is now in the mids of its annual Gunlayers' tosts. H. M. S. Cadmus, fired ferty-seven rounds on July 30 with her 4-in guns, and made twentyeight hits, the best gun firing eight rounds with seven hits. The average rate of fire was 10.4 rounds with 6.2 hits per gun per minute. The best ship with that class of gun in 1907 fired only 9.8 rounds with 3.5 hits per gun per minute.

A STRANGE DRUG

Hacheesh, that strange drug which has given our language its word "assesin"a man so frenzied by the drug that he accomplishes murder-is used by the Persians, Turks and Egyptians in a manner skin to the use of opium by the Chinese. It is the product of a plant grown in large quantities in the Peloponnesus (Southern Greece) in the district about Tripolitza The plant grows to a height of about four feet, and its branches are thickly covered with small leaves and studded with tiny

The entire plant stalk and branches, is cut within a few inches of the root and laid out in the sun to dry. The branches are then rubbed to separate the seeds, and these in turn are ground into a fine powder, which constitutes the drug. The drug has the power of inducing eleop and producing pleasant and fantastic dreams. Continued use of hasheesh renders its devotees wild and reckless and results in a complete wreck of their mental and physical constitution.

For this reason the Egyptian government prohibited the importation of the drug and ables, are being landed and stored at their entered into a convention with Greece to risk into the hexardous_and/or extra prevent its exportation from there to hazardons Godowns of the Hongkong and Egypt, where the consumers of hasheesh downs whence delivery may be obtained. | never used in Greece, but is now exported | No claims will be admitted after the to the various ports in England, Austria, Goods have left the Godowns, and all goods France and Italy, and from there much, no remaining undelivered after the 18th of doubt, ultimately finds its way to Egypt.

THE HUANGPU CON-SERVANCY.

A few weeks ago, it will be remembered, a disturbance occurred on board one of the dredgers employed in the Conservancy Routine. works at Gough Island which ended in one of the participants finding himself in the triver, from which he was just rescued in the nick of time. The incident, we un derstand, was adjusted by his assailant severing his connexion with the Dutch contractors, and there it might have been presumed that the matter would have rested. Unfortunately, however, there seems to have been more behind the fight on the dredger than a personal quarrel, and when the Board's employee subsequently put himself in the wrong by refusing to obey the orders of one of his superiors, an opportunity presented itself to Mr Ku Hung-ming to inquire into the whole point at issue between the contractors and the Board's employees. The result of MATHESON & Co. these investigations, it is to be feared, will be proceedings in the Dutch Consular Court Meanwhile Viceroy Tuan Fang, on hearing of the trouble, appointed a commission, consisting of the Shaughai l Taotai, Mr H. E. Hobson, Commissioner of Customs, Mr Ku Hung-ming and another, to examine the various allegations made by the Contractors and the Board's employees against one other. Only one meeting of this Commission has been hold, and its deliberations were abortive owing to a difference of opinion between the Taotai and Mr Ku Hung-ming. The subject is essentially one for cool, dispassionate investigation, and it is to be hoped that this will be forthcoming when the case is brought before the Dutch Court immediately after the Consul-General's return. It is hardly necessary to point out that a dispute of this nature cannot affect the principle of conservancy work which must proceed whether the Contractors' employees or the Board's employees are at fault. Some blame would seem to attach to the person responsible from the break up of the first meeting of the Viceroy's commission. N.-C. Daily News.
